Customer feels that the Commission is dragging their feet on the issue of letting Qwest providing long distance services. Customer feels by offering long distance to Qwest, this will enable the carrier to provide local options that no other local carrier to provide. Another option to mandate that will let other carriers to provide more local carriers to also provide other options. He feels that deserve better, and feels that once a month for Open Meetings is too long of time in between when a matter like this is so important to residents of Arizona.
